

1-10 QUICK PRESENTATION

- 1 In box 1 you'll see the credibility of ACN. We've been around since 1993 and already operate in 25 countries – use your tablet & personal storefront (**your ACN 'Hero'**) to illustrate the countries and services. Last year we did over AU\$1 billion in revenue, and have offices all around the globe. We've been featured in many top business journals and magazines, documenting our credibility.
- 2 We market the services and products that every individual and business has, wants and needs. **Use Customer Survey to illustrate.** We have partnered with the largest and best known brands and provide better value than going direct. We can provide better value because of box 3...
- 3 The way we acquire Customers is very simple. We don't pay for unnecessary advertising. We use relationship marketing and eCommerce, so our Customers shop 24/7 directly from your personalised online store. The result is better service & better value, plus we provide meals via Foodbank. Also, ACN offers to share the profit with you if you participate in box 4...
- 4 **To set up Your Global Online Store is just \$495.** This includes an online office with training and support to run your business. There is an annual renewal fee of just \$164. Confirm they agree that online is the way of the future and they can see the value of being part of the future.
- 5 When Customers pay their bills, you earn an ongoing Residual Income of up to 10%. This is a regular, reliable monthly income – do the work once and get paid for a lifetime, just like a rock-star or author earns a royalty income!
- 6 Overriding Residual Income. This is the best way to get paid based on leverage. As you build your team of Independent Business Owners (IBO's) you get paid up to 8% ongoing commission when Customers shop at your network of Online Stores. You get paid like a CEO or franchise owner.
- 7 The average home has 5–10 services. You can see how this can quickly reach hundreds & even thousands of online stores all in your network. Just imagine what your possible income could be 5,000 plus Customers. **Take your personal Customer Survey as an example.**
- 8 ACN also has a weekly cashflow income stream via a Bonus structure. Money can be earned quickly while your Residual Income is growing, this is your now money. You can rapidly expand this bonus income with the higher leadership positions.
- 9 ACN has a brilliant compensation plan. # 1, you earn bonus money weekly as we help new business partners acquire their Customers. # 2, you get paid monthly as bills are paid, and that's your Residual Income.
- 10 As an IBO, you're in business for yourself, but not by yourself. Every step of the way you have a support structure, via personal mentoring, online training, and local training events.

In Summary, we do two things in ACN

1. We own and promote our Online Storefront and earn up to 10% monthly commission when our Customers use essential services ongoing.
2. We help others open their Online Storefront and earn up to 8% monthly commission when their Customers use essential services ongoing.

People usually do 1 or two things when they see this information. #1, they see it, like it and want to get their Online Store set up. Great! I'll spend a couple of hours to ensure you get started correctly and set you up for a long term successful business. #2, people aren't sure and may have questions. My advice is to go ahead anyway, and introduce this to someone who gets very excited and then you'll benefit from that day forward. Join me at an upcoming local event to see other locals having real success.

Do you see an opportunity for yourself?
